With 150 years' experience, we are one of Queensland's most experienced and trusted aged care providers. Whether you need some help at home, want to improve your lifestyle and wellbeing, or are looking into residential aged care, we have a range of support services to help you and your family.

It's about you

The care we offer, responds to the diverse needs and choices of each of our residents. Our philosophy supports providing autonomy, dignity and encourages residents to form and strengthen partnerships of care.

Every room is designed to feel homely and with comfort in mind. Natural light and easy access to outdoor spaces create a peaceful environment where residents can feel at ease.

Our commitment to care

Our standards of care are lived through the philosophy and principles of our Rhythm of Life™ care model – embracing the power of person-centred care. This means that the care each resident receives is tailored to their health, spiritual, social and individual needs, interests and passions.

As part of our person-centred care model, we offer 24/7 registered nurse support, meaning you and your loved ones can have peace of mind knowing support is always available. A wide range of allied health professionals

attend our homes to provide specialised care tailored to our resident's needs. E.M. Tooth also offers specialist dementia support care for residents living with dementia, to promote their wellbeing.

We deliver a high standard of care in line with the Aged Care Quality Standards set by the Aged Care Quality and Safety Commission, with feedback and outcomes regularly monitored to ensure we continually improve our services and meet your expectations.
