

Host your own Tea for Tomorrow

Hosting a Tea for Tomorrow is a wonderful way to come together, have some fun and help Anglicare in its mission to build safe accommodation and a brighter tomorrow for young people in need.

Beyond the joy of sharing food and friendship, it's also a creative and uplifting way to raise much-needed funds and celebrate community spirit — all while supporting a cause that truly matters.

Supporting Youth, Strengthening Tomorrow

Every night, thousands of young people in Queensland are without a safe place to call home. Almost a quarter of all people experiencing homelessness in Australia are aged 12–24.

Anglicare Southern Queensland is responding with the Youth Homelessness Accommodation Project, a \$14 million purpose-built facility in the Logan region custom designed to support young people (aged 16–25) who are either experiencing, or at risk of experiencing, homelessness.

The Youth Homelessness Accommodation facilities will include:

30 modern units designed for dignity and safety

24/7 on-site support from caring professionals

Wrap-around services such as counselling, education, employment pathways, and life-skills mentoring

We know that with stable housing and the right support network, young people can positively change their life trajectory by securing employment, education, and long-term housing.

The impact you can make

\$500 – helps furnish a room

Help cover the cost of a bed, bedding and basic furnishings to make a room welcoming and safe.

\$1000 – helps provide a pathway to stability

Helps to provide a young person with the tools for independence such as life skills training, mentoring and job readiness programs.

\$5000 – helps create communal spaces

Supports the fit-out of shared living areas where young people can cook, eat, and connect in safety.

\$10,000 – helps provide wraparound support

Creates the stability needed for young people to thrive, reconnect with community, and build a future of possibility. This is an investment in hope, directly changing the trajectory of a young person's life.

Why should we host a Tea for Tomorrow?

Creating Change Together

By hosting a Tea for Tomorrow, you join a community of people taking meaningful action against youth homelessness. Every cup poured and every plate shared helps turn compassion into real, lasting impact for young people in need of safe accommodation.

Building Connection

A morning tea brings people together, whether it's friends, family, colleagues, or your wider community. It's a warm and welcoming space to share stories, laughter, and generosity while making a difference.

Inspiring Involvement

Hosting an event invites others to get involved in a hands-on way. Guests don't just attend, they become part of something bigger. A Tea for Tomorrow can spark new conversations, encourage ongoing generosity, and inspire action well beyond the day itself.

Your Cup of Tea Creates Change

By sharing in Tea for Tomorrow, you are helping Anglicare build safe accommodation and a brighter tomorrow for young people in need.
